

My name
is Huw.

Branching Out
provides me with work,
friends and fun.

I work in Horticulture with
my mates and play football
at lunch.

I want to run a restaurant
when I leave.

The projects and courses Red2Green offers

There are a number of activities available including:

Retail training

In our charity shop, learners sort, price and display items for sale, while learning to use the till, sell items on eBay, and other work based skills such health & safety and team work.

Horticulture

Learners are involved in every aspect of growing fruit and vegetables which we then sell in our shop. People take part in community events such as the Littleport Show, cutting some of the village footpaths, maintaining and planting the village plant boxes.

Woodwork

The woodwork group design and construct garden furniture and village notice boards, learning how to sand, paint and use power tools. This group also deliver products to customers in our pick up truck.

About Branching Out

Branching Out provides a learning, work and social experiences for people who have a wide range of disabilities, mental health problems and social communication disorders, such as autism.

Where the activities are

The activities are either at our shop or our main site in Littleport. All groups also take part in community activities. The full list of projects can be found on our website.
